

VINYL GRAPHICS CARE INSTRUCTIONS & TIPS

The Wrap Agency warrants the vinyl and installation for up to 1 year after the installation date. This includes cracking, peeling or bubbling of the vinyl or laminate. This warranty does not include daily wear and tear such as scratches, scuffs, tears, rock chips, etc.

In order to maximize the lifespan of your wrap, it is essential that you follow the recommended care instructions listed below.

Hand Washing is Recommended (at least every 2 weeks)

- Use a non-abrasive cleaner without strong solvents
- Use plenty of water and wash from the top of the vehicle down
- Avoid brushes - both automatic and hand brushes as they can cause scratches and dull the finish of the protective laminate brushes can also lift loose edges
- Use a soft sponge or rag and avoid excessive scrubbing
- Take extra care on matte or textured finishes
- Rinse any residue thoroughly with clean water
- Air dry or dry with a microfiber cloth

Pressure Washing - avoid if possible. If not follow these tips

- Avoid excessive pressure which can damage the graphics
- Do not spray damaged graphics as the water can get under the graphic causing lifting and curling
- Do not direct the spray at a sharp angle to the graphics
- Avoid spraying directly on wrap seams
- Trim back all lifted edges and seal with an edge sealer or replace sections of graphics if necessary

Water pressure-maximum 800 psi to 2000 psi	Spray nozzle spray pattern 40 degrees	Spray angle 90 degrees sweeping spray
Water temperature maximum 72 to 180 degrees	Min. distance of nozzle to the graphic: 12 to 18 inches	Never use a Turbo pressure nozzle

VINYL GRAPHICS CARE INSTRUCTIONS & TIPS

Additional Tips

- Remove any residue or “gunk” as soon as possible to avoid damage or staining
- Test any cleaners you use in an inconspicuous place first; avoid abrasive cleaners
- Gas spill - wash off residue with soapy water ASAP
- Oil, tar or asphalt build-up - wipe down with Isopropyl alcohol and a citrus-based cleaner
- Follow any chemical cleanings with a regular washing with water and a mild cleanser
- Boats, clean with fresh water after use
- Park in the shade, in a garage or under cover as much as possible to avoid UV damage
